Career Objective

Aspiring AI and Data Science Engineer with a passion for developing practical and innovative solutions using Machine Learning, Deep Learning, and Generative AI. Dedicated to leveraging data-driven insights and intelligent systems to address real-world challenges and create meaningful technological impact.

Education

KPR Institute of Engineering and Technology, Coimbatore, Tamil Nadu (Affiliated to Anna University)
B.Tech in Artificial Intelligence and Data Science

- CGPA: 7.34 (Till 4th Semester)
- Relevant Coursework: Data Structures, Machine Learning, Deep Learning, Computer Networks, DBMS

National Infotech College, Birgunj, Nepal
Higher Secondary Education (+2 Science – Physics, Chemistry, Mathematics with Computer)

- GPA: 2.92 / 4.0

Technical Skills

Programming Languages: Python, C, Java, R, JavaScript
AI & ML Frameworks: TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, Matplotlib
GPU & Performance Tools: CUDA (basic), OpenCV (GPU acceleration), NVIDIA Developer Tools
Computer Vision & GenAI: OpenCV, YOLO, LangChain, Transformers, LLMs, OpenAI API, Google Gemini API
Web & Backend Development: FastAPI, Flask, Node.js, MongoDB,React,Streamlit
Tools & Platforms: Git, VS Code, Jupyter Notebook / Google Colab, PyCharm, IntelliJ IDEA, Docker (Basic), Anaconda
Libraries: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, TensorFlow, Keras, PyTorch, XGBoost
Areas of Expertise: Deep Learning, GPU Acceleration, Model Optimization, Parallel Computing, Computer Vision, NLP, Generative AI, API Integration, Model Deployment
Soft Skills: Communication Skills, Problem Solving, Learning Agility, Team Collaboration, Adaptability, Time Management, Critical Thinking

Projects

Aegis Health Assistant (AI-Powered Digital Health Assistant) — Sept 2025 Developed a healthcare web app offering medical chatbot support, hospital locator, and automated PDF health reports. . ***Tech Stack:*** Python, Streamlit, SQLite, Rule-based AI, APIs

Smart Plant Disease Detection App (Deep Learning) — Jul 2024 – Aug 2024 Designed a CNN-based model to detect and classify plant diseases with over 90% accuracy using image preprocessing. ***Tech Stack:*** Python, TensorFlow, OpenCV, CNN, Streamlit

Student Grade Tracker System (Web App) — Apr 2024 – May 2024 Created a full-stack system to record, evaluate, and visualize student grades with integrated analytics. ***Tech Stack:*** Python, Flask, MySQL, HTML, CSS, JavaScript

Phishing Website Detection (Machine Learning) — Feb 2024 – Mar 2024 Built a classifier to detect phishing URLs using ensemble ML algorithms, improving precision and reducing false positives. ***Tech Stack:*** Python, Scikit-learn, Random Forest, XGBoost, Pandas

Student Performance Analysis (Data Analytics) — Dec 2023 – Jan 2024 Developed an ML model to analyze and predict student performance with interactive dashboards. ***Tech Stack:*** Python, Pandas, Matplotlib, Streamlit, Scikit-learn

Internship / Experience

AI Intern – Flowrage Technology
- Worked on "Medical Diagnosis AI-Predicting Disease from Symptoms
- Designed Streamlit interface for disease prediction model.

Web Development Intern – Oasis Infobyte (AICTE OIB-SIP)
- Completed a 1-month internship focused on web design and front-end development.
- Built responsive web pages using HTML, CSS, JavaScript, and React.

Certifications

- **NVIDIA CUDA C/C++ Certificate** – Fundamentals of Accelerated Computing with CUDA C/C++
- **NVIDIA CUDA Python Certificate** – Fundamentals of Accelerated Computing with CUDA Python
- **GPU Computing Codeathon (6th Rank)** – IEEE + NVIDIA, KPRIET
- **Image Analysis Using OpenCV** – KPRIET (ECE Department)
- **Flowrage Technology AI Internship Certificate** – FTAI010
- **AlgoUniversity Tech Fellowship 2025** – Top 8% among 2,50,000 participants
- **DEVSPARK'25 (DevForge)** – Built "AEGIS Health AI" app at IEEE KPRIET Hackathon
- **Invente'25 – National Level Tech-Fest (Websitica)** – SSN College of Engineering & Shiv Nadar University Chennai

Achievements

- Completed **German Language A1 Level**; currently learning A2 (Certification planned).
- Participated in multiple hackathons, workshops, and AI competitions.

Keywords

Artificial Intelligence, Data Science, Machine Learning, Deep Learning, Generative AI, Computer Vision, CUDA, NLP, LLMs, Model Deployment, Streamlit, TensorFlow, PyTorch, Data Analytics, SQL, Python, FastAPI, Research, Problem Solving, Innovation, Leadership
