Rajkishor Kushwaha

AI & Data Science Student | Aspiring Data Scientist

Coimbatore, Tamil Nadu, India | kushwaharajkishor683@gmail.com | +91 8072812047

LinkedIn | GitHub | Portfolio

Professional Summary

Aspiring AI and Data Science Engineer with a passion for developing practical and innovative solutions using Machine Learning, Deep Learning, and Generative AI. Dedicated to leveraging data-driven insights and intelligent systems to address real-world challenges and create meaningful technological impact.

Technical Skills

Programming: Python, SQL

Data Science: NumPy, Pandas, Matplotlib, Seaborn, Data Analysis, Statistics, Probability, Exploratory Data Analysis

Machine Learning: Scikit-learn, Regression, Classification, Clustering, Feature Engineering, Model Evaluation, Random Forest, XGBoost

Artificial Intelligence: Deep Learning, Natural Language Processing, Generative AI, Convolutional Neural Networks

Development: Streamlit, Flask, REST APIs

Tools: Git, GitHub, Jupyter Notebook, VS Code, Kaggle

Additional Technical Exposure: TensorFlow, OpenCV, SQLite, CUDA

Projects

Medical Diagnosis AI – Disease Prediction from Symptoms

- Worked on a machine learning application to predict possible diseases from user-provided symptoms.
- Contributed to data preprocessing, model development, and an interactive prediction interface.

Technologies: Python, Pandas, Scikit-learn, XGBoost, Streamlit

Aegis Health AI – Healthcare Support Application

- Contributed to a healthcare-focused application during a 24-hour technical event.
- Worked on features involving chatbot support, hospital location assistance, and automated PDF health reports.

Technologies: Python, Streamlit, SQLite, APIs

Adaptive AI-Powered Learning Management System

- Explored an adaptive learning system for personalised assessment using student response data.
- Studied concepts including Q-Matrix, Item Response Theory (IRT), Computerized Adaptive Testing (CAT), and DINA.

Technologies: Python, Machine Learning, IRT, CAT, DINA

Smart Plant Disease Detection

- Worked on a CNN-based image classification project to identify plant diseases from images.

Technologies: Python, TensorFlow, OpenCV, CNN, Streamlit

Phishing Website Detection

- Worked on a machine learning classifier to distinguish phishing websites from legitimate websites using URL-related features and ensemble models.

Technologies: Python, Pandas, Scikit-learn, Random Forest, XGBoost

Experience & Internships

AI Intern – Flowrage Technology

- Participated in a four-week virtual AI internship focused on machine learning and practical AI development.
- Worked on a Medical Diagnosis AI project involving symptom-based disease prediction, data preprocessing, and an interactive interface.
- Certificate ID: FTAI010.

Web Development Intern – Oasis Infobyte

- Completed a one-month internship involving web development tasks.
- Worked on web pages and responsive design using HTML, CSS, and JavaScript.

Education

KPR Institute of Engineering and Technology (KPRIET)

B.Tech in Artificial Intelligence and Data Science

- Coimbatore, Tamil Nadu, India.

- Final Year | CGPA: **7.34/10** (up to 6th semester).

National Infotech College, Birgunj, Nepal
Higher Secondary Education – Physical Science with Computer Science
- GPA: 2.92/4.0.

Achievements

- **AlgoUniversity Tech Fellowship 2025:** Selected within the reported top 8% of approximately 250,000 applicants.
- **IEEE + NVIDIA GPU Computing Codeathon:** Achieved 6th rank at KPRIET.
- **KPR Cricket Tournament:** Won the final and received the Winner's Cup, Gold Medal, and INR 5,000 prize.

Certifications & Technical Learning

- NVIDIA – Fundamentals of Accelerated Computing with CUDA C/C++.
- NVIDIA – Fundamentals of Accelerated Computing with CUDA Python.
- Image Analysis Using OpenCV – KPRIET.

Leadership & Activities

- **Event Head & Coordinator – KPRIET Sangamam:** Contributed to planning and coordinating student activities and events.
- **Yellow House Captain:** Served for four consecutive years during Secondary School.
- **Technical Events:** Participated in hackathons and technical activities, including DEVSPARK'25 and the KPR International Hackathon.

Languages

English (Intermediate) | Nepali (Fluent) | Hindi (Fluent) | Bhojpuri (Native) | German (A1 , A2 completed)
